Not ready to relocate, ready for rare business trips.

Desired position and salary

Senior Frontend Developer

IT, Internet, Telecom
  • Software Development
  • Internet
Employment: full time
Work schedule: full day, flexible schedule, remote working

Work experience — 8 years 9 month

January 2019 —
August 2019

8 months

Sfera

Russia, Sfera.ru

Frontend Developer

Leaving reason: relocation.

I developed finance info module (income, outcome, debts, etc).
I created basics of the trade system (3rd party API integration).

Tools: WebStorm, Git, Gitlab.
Technologies: JavaScript, React.js, LESS, Webpack.

June 2018 —
October 2018

5 months

Skillmill

Remotely, skillmill.io (not public yet)

Frontend Developer

Leaving reason: development was frozen.

I developed internal chat system (Websockets) with file sending and user's profile page.
I automatized release and deploy processes with shell scripts.

Tools: WebStorm, Git, Github.
Technologies: JavaScript, Vue.js, LESS, HTML, Webpack, Bash.

Carrus Mobile

Remotely, breakerlog.com (closed)

Frontend Developer

Leaving reason: company was closed :-(
I created management panel (React.js). All frontend stuff was on my responsibility.
I planned site architecture and create pages, automatized release and deploy processes with shell scripts and configured Nginx server for frontend part.
I split site for independent bundles and configured different Webpack builds for different environments.

Tools: WebStorm, Git, Github.
Technologies: JavaScript, SCSS, HTML, React.js, Redux, Webpack, Bash, Lodash.

YouDo

Russia, youdo.com

Programmer

Maintaining YouDo.com frontend.
Migration to ES2015 (Babel). React
(Redux) integration.

Tools: WebStorm, Git, YouTrack.
Technologies: JavaScript, LESS, HTML, Angular.js, React.js, Lodash, Jest, Backbone.

KamaGames Studio

Moscow, kamagames.com

Senior Frontend Developer

I had full responsibility for internal report and data visualization service.
I gathered requirements from internal consumers, develop frontend (Angular 1), backend (Node.js), integrate third party services.
I coordinated data gathering from all company departments.
I interviewed the frontend developers and fullstack developers.

Developed service features, fix bugs, create UI.
Developed API on Node.js.
Unit tests (Mocha + Chai). Added
OAuth with LDAP.

Maintaining of internal React.js project: creating new components, bugfixing (a lot).

Tools: WebStorm, Git, Redmine, Postman.
Technologies: JavaScript, SCSS, HTML, Angular.js, React.js, Lodash, Node.js, Mocha, Chai, Websockets, a little MySQL and Redis.

Localway

Moscow, localway.ru

Frontend developer

Maintaining and supporting localway.ru with Angular.js: bugfixing, layouts, developing new pages, modules, directives for main site, also for mobile site and admin panel.

Tools: WebStorm, Git, JIRA, Slack, Kato.
Technologies: JavaScript, jQuery, CSS, HTML, Angular.js, Underscore.js, a little bit Python.

June 2014 —
November 2014
6 months

Workle

Moscow, workle.ru

Frontend developer

Features, bugfixing, layouts, again bugfixing. Change some pages, e. g. special offer page and tours search.
Maintain some admin panel pages.

Tools: Git, JIRA, Visual Studio.
Technologies: JavaScript, jQuery, CSS, БЭМ, a little bit Backbone.js & Require.js.

November 2013 —
May 2014
7 months

NullPointer

Moscow, null-pointer.ru

JavaScript developer

Modules for AngularJS: DB search, sorting, pseudopage pagination.

Tools: Git, Ubuntu, Netbeans.
Technologies: JavaScript, CSS, HTML, Angular.js, Require.js, Underscore.js.

July 2012 —
November 2013
1 year 5 months

Oversun

Moscow, oversun.ru

UI developer

Develop company own service panel UI. Improve UX and UI for company sites and projects. Develop some
child projects's sites.

Tools: Notepad++, Visual Studio.
Technologies: CSS, HTML, JavaScript, jQuery, Razor.

April 2012 —
July 2012
4 months

Oversun

Moscow, oversun.ru

Web coder

Maintain new company site (a present one). Layouts, templates, scripting. Polish some
third-party libs for project needs.

Tools: Notepad++.
Technologies: CSS, HTML, JavaScript, jQuery.

June 2010 — December
2011
1 year 7 months

ARTUS Internet Agency

Moscow, artus.ru

Content manager

I filled pages with content, proofreaded and typographed for tens of sites . I
maked and configured a lot of forms, banners, and pages.

I upgraded job descriptions and performance standards, also I updated content manager technical standards.

Tools: Notepad++.
Technologies: CSS, HTML.

Typographic   Web Programming   Usability   Node.js   SQL   ES2015

React.js   Redux   Phaser   Webpack   Vue.js

Further information

About me

Looking for relocation or remote positions.

I want to make web a little bit better: more comfortable for users and much comprehensible for crawlers.

Flexible schedule is preferable.

I am diligent, meticulous and scrupulous person.
I am very glad to see good solutions and try to no let bad solutions to go to the production.

I have perfect Russian and upper intermediate English.

I can create cross-browser layouts (possible IE6+, preferable IE11+).

In the workplace I need to have two displays (office only).
