

Pavel Lysenko

Senior Frontend Developer / React / TypeScript
\$4,500 net

Senior Frontend Engineer with 14+ years of experience in JavaScript, TypeScript, React, and Vue.js.
I build complex web interfaces, internal platforms, dashboards, browser extensions, and data visualization tools.
I have worked on products for Yandex, Wildberries, fintech companies, and international startups.
My focus areas are SPA architecture, performance optimization, complex business logic, API/OAuth integrations, and maintainable frontend systems.
